

Dynabook Powered by APL Fulfillment

Driving Innovation While Delivering Reliability

For over three decades, Dynabook has defined mobile computing. From launching the first-ever laptop to engineering today's secure, high-performance systems, we continue to focus on what matters most: providing technology built on innovation, quality, and trust to help organizations succeed in an ever-evolving world.

Who We Are

With more than 30 industry-first innovations and a reputation forged through continuous advancement, Dynabook is the go-to partner for professionals and organizations worldwide. Together with APL Fulfillment, we extend these proven technologies — and more — so customers benefit from unmatched reliability, performance, and long-term value.

performance
for growing
businesses

Education:
Rugged,
classroom-ready
systems that
support learning
and collaboration

Healthcare:
Reliable laptops
with built-
in security to
streamline
clinical
operations

Financial Services

In partnership with Dynabook, APL Fulfillment provides flexible financing options that remove barriers to technology adoption. Through leasing, deferred payment structures, and customized plans, we help organizations reduce upfront expenses, protect cash flow, and invest confidently in innovation and growth.

Technology Buyback

Stretch your IT budget and advance sustainability with our buyback options. By responsibly recycling or repurposing older equipment, we help you stay compliant with environmental standards while freeing up resources to reinvest in new technology.

Hardware Solutions

We deliver a broad portfolio of durable, high-performance hardware designed around your requirements. From powerful laptops to purpose-built devices, every solution is engineered for long-lasting reliability and to keep your operations running smoothly.

Connectivity Solutions

We ensure your teams stay connected with dependable, secure networking wherever work takes them. Our solutions — from wireless systems and mobile routers to cloud-based infrastructure — deliver the speed, efficiency, and responsiveness modern organizations demand.

Software Solutions

We offer software to simplify operations and safeguard information. Whether through cloud applications, productivity tools, or advanced cybersecurity, our solutions give teams the resources they need to work efficiently and securely.

Project Management and Logistics Services

Effective technology rollouts depend on careful planning and precise execution. Our project management and logistics expertise spans procurement, setup, and deployment, ensuring your initiatives run smoothly, stay on schedule, and avoid unnecessary downtime.

Deployment and Installation Services

We provide deployment solutions for both government and commercial fleets, making sure vehicles and systems are fully operational. Whether handled at our fleetTEC headquarters or through mobile teams, we carefully install, configure, and test equipment to guarantee optimal performance in the field.

Technology Services

Our technology services are structured to solve the distinct challenges of every industry. By evaluating your current environment, creating tailored roadmaps, and coordinating end-to-end solutions, we help boost efficiency and control costs so you gain the greatest return on your technology investments.

IT Services

We deliver IT services to support every stage of your technology journey. Our offerings span consulting, managed services, project execution, and staffing support — each designed to be scalable and cost-efficient.

Why Choose Dynabook?

Dynabook goes beyond simply delivering laptops. We set the standard for mobile computing. With more than 30 pioneering firsts, proven reliability across industries, and support programs like the +Care Service® Warranty, we provide technology for long-term performance and customer success.

Experience the Difference

Ready to cut downtime and boost ROI with reliable, business-rugged devices? Partner with APL Fulfillment and Dynabook to equip your teams with technology built for performance, longevity, and value. Contact us today to get started.
